## COLOR MATCHING

- We can match to your color specifications, or print AS IS. Color matching can take 7-15 Business Days to complete. Please make sure this will not conflict with the installation date.

- You may mail us a physical printout and/or provide us with a PMS value that we will match as close as possible to.

- We can provide you a color sample proof that can be shipped to your location. The sample size will be 15" high x the proportional width. The first sample, if shipped by ground, will be at no cost. All additional samples will be at an additional cost.

GRAPHIC FILES

- Our Graphics Team is capable of making edits to your artwork prior to production. Should the edits include major or extensive changes to the creative, a Graphics Fee will be added to your order.

- All final graphic files need to be submitted to EPIC two (2) weeks prior to installation date. If a color proof is required, the graphic files will need to be submitted three (3) to four (4) weeks prior to installation date. Any artwork submitted less than three (3) weeks prior to the installation will not be eligible for a physical color proof to be shipped to them due to time constraints.

- Artwork submitted to EPIC will be held for up to two years. Any new orders or reprints of artwork older than two years will need to be approved by the brand and re-submitted.
