

KWIK ZIP™ Graphic System Specifications

The System Designed for this Rugged Environment

The Frame

Change Graphics as Needed.... in minutes by zipping them off and on. Since time is money, the KWIK ZIP offers great economy and value for both use and ownership.

KWIK ZIPPER Hand Tool

It provides the required mechanical advantage to tension the graphics to 360 pounds per linear foot. The vinyl is perfectly tensioned on all 4 sides there is no flapping in the wind.

Anodized

Anodizing ensures that the frames remain beautiful and OEM looking for the life of the trailer.

½ Hour Installations

The KWIK ZIP Graphic System and Graphics can be installed on both sides of a 53' trailer in under ½ hour.

Aircraft Grade Aluminum

The frames are fabricated from 6061 structural grade aluminum then heat treated to T6 for additional structural integrity. They were specifically designed for the demanding trucking environment.

Magazine Pages

Ultra High Print Resolution ensures crisp images that are clean and beautiful. The graphics look like enormous, glossy magazine pages.

Weather Resistant Fasteners

KWIK ZIP fasteners are water resistant and offer high shear and pull out values for safety. Designed for this specific environment trucks operate in, they will not shake or rattle loose. They perform flawlessly for all truck and trailer configurations, especially refrigerated vehicles.

Factory Look

The frame looks OEM. EPIC can complete installation right at the truck & trailer factory.

True to Life Colors

The graphics are printed with new Vivid Ink Sets. They are vibrant and luxuriant in color, ensuring they get noticed and leave lasting impressions.

Armor Coated

The printed graphics are top coated with EPIC's proprietary high performance Armor Coat. It offers additional UV protection, scuff resistance and is anti graffiti.

Superior Custom Frame Fabrication into Kit Form

The KWIK ZIP arrives in kit form, predesigned for your specific truck or trailer. We do all the work at our factory to save you precious fleet time - which means frames and graphics can be installed in one hour and one trip.

Seamless

The graphics are seamless smooth and beautiful.

The Vinyl Graphic

28 oz. Rhino Vinyl

The graphics are printed on EPIC's special 28 oz. Rhino Vinyl. This proprietary vinyl is manufactured to EPIC's strict requirements specifically for the tough trucking environment.
